

# Midland Basin-Development Project

## Borden County, Texas

- Production: Current field produces approximately **65 BOD**.
- Formation/Play: Primary-Wolfcamp/Spraberry stacked multi-pay field  
Discovered in 1951.
- Spraberry Wells: Thirteen successful vertical wells in the Spraberry and  
2 horizontal wells. Four wells have not been fracture stimulated.
- Wolfcamp A/B: Tested successfully in the vertical wells; Analog WC logs correlate  
to offset horizontal wells.
- Other Formations: Proved by recent vertical tests and offset production (Clear Fork).
- Acreage Position: ~ 11,800 gross acres ( 6,100 Option, 1,120 primary term, 3,800  
HBP).
- Infrastructure: Production facilities, flowlines, taps, roads, **SWD wells/facilities/**  
Lines.
